

Tank Care Buddy

Session 2 — iOS Polish & Theme System

May 19, 2026

Focus on making the app feel polished on iPhone: fixed swipe gestures, long-press quick actions, a Share button, a proper cache-busting system, and the first multi-theme system with Clean Aquarium as the default.

Repository: [jtsmith7234-rgb/my-tanks](https://github.com/jtsmith7234-rgb/my-tanks)

Long-press quick actions on tank cards

Commit: [f8b5e8c6](#)

- Tap and hold a tank card to get quick-action shortcuts.
- Fixed iOS-specific long-press behavior so it works reliably.

Swipe-to-reveal on tank cards (iOS style)

Commit: [4eb34713](#)

- Swipe a tank card left to reveal delete and other actions.

Cache-busting added to all assets

Commit: [08eaed3b](#)

- Added version query strings to all JS/CSS files so updates load immediately.
- Pattern: `v=YYYYMMDD[letter]` (e.g. `v=20260519a`).

Fixed swipe-glow + iOS hover-state drift

Commit: [426457e3](#)

- Eliminated a visual glitch where tank cards glowed after being swiped.
- Fixed hover states that stuck on iOS after touch.

Share button added

Commit: [3e55ff25](#)

- Tap Share to invite a friend to the app with one tap.

Theme system: Clean Aquarium + Japanese Koi

Commit: 0a7f7ee4

- Added a full theme system with two options.
- Clean Aquarium became the new default (lighter, more readable).
- Japanese Koi theme preserved as an option.

Fixed invisible Remove buttons in Aquarium theme

Commit: 5a98c341

- Remove buttons and dose numbers were invisible against the light background — fixed.
