

Tank Care Buddy

Session 3 — App Store Polish & Guided Setup

May 20, 2026

Big polish pass aimed at App Store readiness: guided first-tank setup flow, privacy fix so new installs start empty, better layout, safe-area handling for iPhone notch/home indicator, and realistic sample tank data for screenshots.

Repository: [jtsmith7234-rgb/my-tanks](https://github.com/jtsmith7234-rgb/my-tanks)

App Store polish pass

Commit: 81ce88f4

- Reminders lifecycle improved.
- Glanceable graphs cleaned up.
- Status-aware tank cards (show alert/ok state at a glance).
- Copy hygiene pass — cleaned up all button labels and messages.

Guided setup: help modal, tank-kind picker, First Tank checklist

Commit: 584aa5ab

- When you tap +, a help modal explains the next steps.
- Tank-kind picker (freshwater, planted, etc.) so the checklist is relevant.
- First Tank checklist is type-aware — different steps for different setups.
- Settings toggle to turn guided mode on/off.

Privacy fix — new installs start empty

Commit: 02b5950d

- Fresh installs no longer have pre-seeded personal tank data.
- Sample/demo data is now opt-in only.

Phase 1 nav/shell polish — fixed layout + safe areas

Commit: 50b84781

- Fixed the overall app shell to use a proper flex layout.
- Single scroll container — no more double-scroll bugs.
- Sub-tabs fit the screen properly.

- Safe-area insets respected for iPhone notch and home indicator.

Helper bar respects safe-area inset

Commit: ede056f6

- Bottom helper bar no longer hidden behind the iPhone home bar.

Sample tanks replaced with 4 curated showcase tanks

Commit: a3398a77

- New sample tanks: Community, Betta, Shrimp, Goldfish.
- Replaced personal tank data that was previously hard-coded.

Sample tanks seeded with realistic history

Commit: 1ea8bb2d

- Each demo tank has water changes, tests, fish adds, and dosing events.
- Graphs and history tab now have real data for screenshots.
